

DUMO[®]
algacleaner

The logo features the word 'DUMO' in a large, bold, dark green sans-serif font. Below it, the word 'algacleaner' is written in a smaller, grey, lowercase sans-serif font. To the right of the text is a graphic consisting of three concentric, curved lines in shades of green, resembling a stylized ripple or a wave.

Ultrasonic treatment applications &
references

DUMO Algacleaner applications

Irrigation

- Prevents clogging of filters.
- No chemicals are necessary.

Ponds

- Friendly for fish and water plants.
- Easy to install and maintain.

DUMO Algacleaner applications

Lakes and reservoirs

- Solar system available.
- Optimum installation of multiple devices covers efficiently large surfaces.

Fish-farms

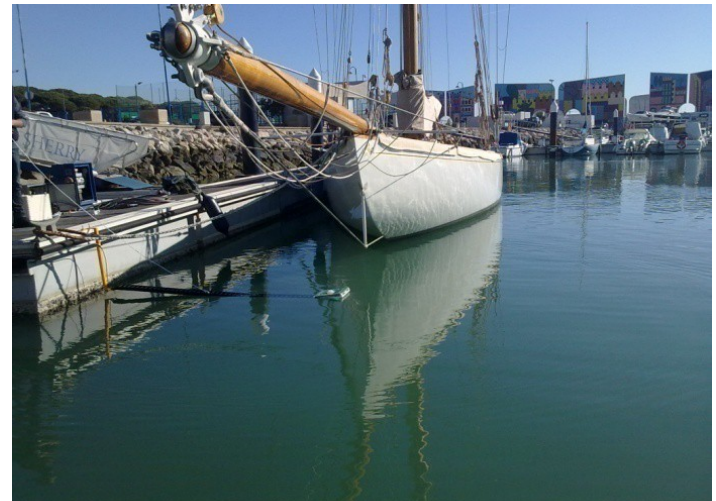

- Safe for animals.
- Controls algae, biofilm and pathogens.

DUMO Algacleaner applications

DUMO ACM: Marinas.

- Easy installation.
- Reduces hull maintenance cleaning works.

Reference: WWTP

“To date, seeing the excellent results obtained because of this installation, we communicate our satisfaction in line with our expectations.”

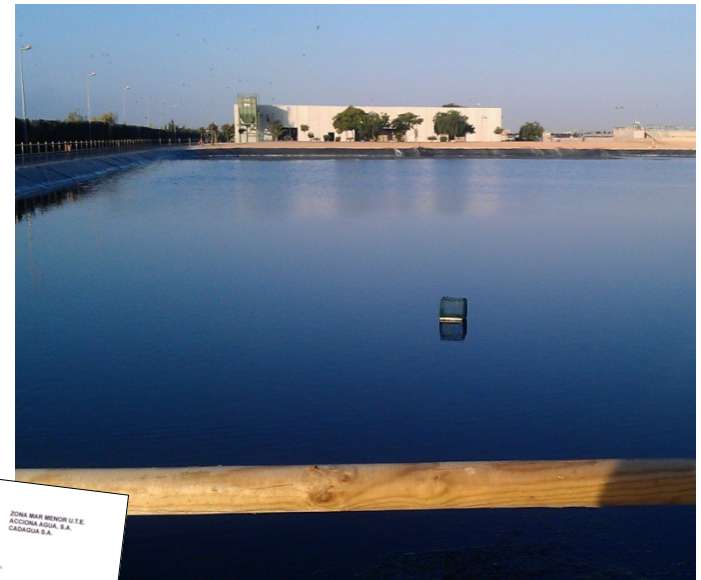

Bárbara Escalante

Plant Manager

San Javier WWTP

UTE Acciona Agua – Cadagua

Murcia, Spain

Reference: marina

“[...] during the period that this has been running in Dock V, results in protection against algae in the hull of HISPANIA can be considered as satisfactory.”

Francisco Colón

Port Captain

Marina Puerto de Santa María S.A.

Cadiz, Spain

Reference: irrigation

“The addition of this equipment has exceeded the objective of removing algae, without operational problems. We express no doubts about its efficacy.”

Olivier Lannuzel
Fleurs de l’Odet
Elliant, France

Reference: boat dock

“The tug is very clean and ultrasound seems to work very well.”

Torgeir Andreassen

Slep og Fortøyning AS

Bergen, Norway

Reference: public park

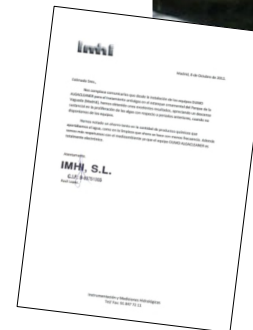

“We noticed a saving both in the amount of chemicals we provided to the water and in cleaning that are now less frequent. We are also more environmentally friendly [...].”

Raúl López

Instrumentación y Mediciones

Hidrológicas

Madrid, Spain

Reference: fish farm

“We can only recommend this type of installation that does not harm the fish or the environment.”

Laurent Boutier
 Manager
 Armorvif EURL
 Kerpert, France

Reference: solar thermal plant

“[...] we can see a significant improvement in mitigating algal growth. Thanks to this technology, we have avoided clogging in the piping caused by algae.”

Pablo Manuel García Benito
Plant Manager
Majadas Solar Thermal Plant
ACCIONA Energia
Caceres, Spain

Reference: irrigation

“We continually had the filters clogged by algae, and this was a real problem for drip irrigation that we tried to avoid it even with chemical biocides. This was finally resolved with the installation of DUMO Algacleaner.”

Christophe Bouchet

Production Manager

Primor Fruit S.A., San José Farm

Seville, Spain

Reference: irrigation

“After six months, the water is still clean and without algae. I am very happy with this device that avoid any chemical addition as copper sulphate. It is more economical and, of course, ecological.”

Alexandre Adnot

Owner, Los Algodonales Farm

Alcalá del Río, Spain

Reference: ornamental lake

“[...] The lake water has remained in perfect condition, without algal blooms, loss of transparency or odour formation, demonstrating a good performance of the installed equipment and the effectiveness of ultrasound treatment.”

Luis Piñana

Area Manager, Acciona Agua

Madrid, Spain

Reference: public park

“The eight ultrasonic units installed in the ornamental channel -horseshoe shaped- of the emblematic Plaza de España in Seville, have succeeded in eradicating the problem of algae and odours.”

Antonio Díaz

Operations Manager, EMASESA

Seville, Spain

Reference: water treatment plant

“The equipment Algacleaner has prevented the formation of a higher type of algae (Lemna) that floats on the surface of the ponds when the water has good quality.”

Pedro Polo

Commercial Director, Acciona Agua

Barcelona, Spain
